## WORK EXPERIENCE

---

### Lutech S.p.A.

Jun. 2024 – Present

*Project Coordinator – Smart City and Mobility Solutions*

*Milan, Italy*

As a Project Coordinator, I handled different R&D teams, managers, clients, stakeholders and projects for urban development solutions:

- Managed multiple development teams using an agile approach.
- Led innovative projects on advanced tech like AI models for Predictions and GIS-like systems on both HPC and Quantum systems.
- Created and maintained documentation, repositories, demos and analysis to streamline team functions.
- Managed meetings, events and smooth managerial operations, promoting a positive work environment.

### Atos Italy

Dec. 2021 – Jun. 2024

*Consultant – HPC, AI and Quantum Computing*

*Milan, Italy*

As a Quantum Computing Consultant, I managed pre-sales technical operations and served as Quantum Computing evangelist:

- Managed crucial relationships with clients like ENI, CINECA, CNMOST, PoliMI and BIREX.
- Created and delivered crash courses for our clients and entities such as the University of Naples and CINECA.
- Delivered presentations on our Quantum Portfolio for Optimization, Cybersecurity and Machine Learning.
- Maintained strong client connections through trust and reliability.
- Deepen connections with entities such as PoliMI Osservatorio Quantum Computing, IBM Quantum.

## EDUCATION

---

### University of Bari (UNIBA)

Jul. 2025

*Master of Quantum Science and Technologies*

*Bari, Italy*

### University of Salerno (UNISA)

May. 2021

*Bachelor of Computer Science*

*Salerno, Italy*

## PROJECTS

---

- **Predictive Maintenance:** In the scope of the National Center for Mobility I managed seven colleagues to develop an AI solution for predicting faults in vehicles. Managing the various meetings and stakeholders, I took the role of product owner as well, directing my colleagues towards the best possible result.
- **Pilot Snap4City:** With the help of six ingenious colleagues, we explored a new tool created by the University of Florence, a data aggregator for urban mobility and digital cities. I managed the developing team and served as a point of contact for both stakeholders and colleagues, formulating innovations to address public needs.
- **HPC & Quantum courses:** Noticing my love for sharing my knowledge, the company allowed me to work with entities such as Universities and Centers of Excellence in creating courses for our high-tech solutions.

## CERTIFICATIONS, SKILLS & INTERESTS

---

- **Certifications:** Prince2 Foundation; Qiskit Global Summer School I & II; Elements of AI - University of Helsinki; Jarvice Expert - Lutech S.p.A.
- **Skills:** Strategic Planning, People Management, Communication, Documentation management; Client Relationship Building, R&D Collaboration, Public speaking, Presentations; HPC & Quantum Technologies experience, Kubernetes, Linux - based systems.
- **Languages:** Italian (Native), English (C1).
- **Interests:** Passionate about Linux and FOSS; Love SCIFI and Horror; I write books when my mind is fogged; Interested in Architectural, Fashion and Communication Design; Also, into GDRs.
